

DOWNLOAD CRATE SERVICE

crate service pdf

A crate is a large shipping container, often made of wood, typically used to transport or store large, heavy items. Steel and aluminium crates are also used. Specialized crates were designed for specific products, and were often made to be reusable, such as the "bottle crates" for milk and soft drinks. Crates can be made of wood, plastic, metal or other materials.

Several types of boxes are used in packaging and storage.. A corrugated box is a shipping container made of corrugated fiberboard. These are most commonly used to transport and warehouse products during

distribution, and are rated according to the strength of the material or the capacity of the finished box.
