

family planning accessibility and pdf

Until family planning is made accessible to address the large burden of unmet need for contraception, countries will be unable to provide their citizens with even their basic human needs. In this paper, I propose four critical steps that can help increase access to family planning in low resource settings, especially those in sub-Saharan Africa.

Making family planning accessible in resource-poor settings

accessibility and family planning services in Kenya; (b) determine how contraceptive use varies by accessibility for each of the variables it is associated with; (c) to examine policy implications of the findings for improving family planning programmes in Kenya. 1.4 Scope and Limitation of the Study

Accessibility and Contraceptive Use in Kenya
