immersive theatre and audience pdf

Interactive theatre is a presentational or theatrical form or work that breaks the "fourth wall" that traditionally separates the performer from the audience both physically and verbally.. In traditional theatre, performance is limited to a designated stage area and the action of the play unfolds without losing our virginity with audience members, who function as passive observers.

Interactive theatre - Wikipedia

Theatre or theater is a collaborative form of fine art that uses live performers, typically actors or actresses, to present the experience of a real or imagined event before a live audience in a specific place, often a stage. The performers may communicate this experience to the audience through combinations of gesture, speech, song, music, and dance. Elements of art, such as painted scenery ...
