Best practices in exploratory factor analysis: four

Data analysis is now part of practically every research project in the life sciences. In this book we use data and computer code to teach the necessary statistical concepts and programming skills to become a data analyst. Instead of showing theory first and then applying it to toy examples, we start with actual applications and describe the theo...

A Practical Approach to RT-qPCR – Publishing Data That

In applied mathematics, topological data analysis (TDA) is an approach to the analysis of datasets using techniques from topology. Extraction of information from datasets that are high-dimensional, incomplete and noisy is generally challenging. TDA provides a general framework to analyze such data in a manner that is insensitive to the particular metric chosen and provides dimensionality ...

Contract lawyers around the world spend hours negotiating seemingly slight changes in contract language. Often these slight changes have significant legal consequences. For example, most lawyers representing a promisor will fight hard to remove a best-efforts standard from a contract in favor of the ...

Best Efforts and Endeavours – Case Analysis and Practical

Traffic analysis is the process of intercepting and examining messages in order to deduce information from patterns in communication, which can be performed even when the messages are encrypted. In general, the greater the number of messages observed, or even intercepted and stored, the more can be inferred from the traffic.
