Hello, Today we are releasing the developer version of the new Opera browser (v.59), codenamed R3 (Reborn 3). In each of our Reborn releases we seek to redefine the modern browser, both in terms of look and functionality.

**The Opera blog**

Automation is the technology by which a process or procedure is performed with minimum human assistance. Automation or automatic control is the use of various control systems for operating equipment such as machinery, processes in factories, boilers and heat treating ovens, switching on telephone networks, steering and stabilization of ships, aircraft and other applications and vehicles with ...

**Automation - Wikipedia**

Control theory in control systems engineering is a subfield of mathematics that deals with the control of continuously operating dynamical systems in engineered processes and machines. The objective is to develop a control model for controlling such systems using a control action in an optimum manner without delay or overshoot and ensuring control stability.
